

FEELINGS

experience your emotions, make them conscious
and harmonize them.

**The 30 Day Application of Gary Young's "Feelings" Oils
Free Seminar with International Aroma Expert Mathilde Helm**

The Feelings essential oil kit is inspired by the intense experiences from Gary Young's own life. With these oils and the specific techniques how to apply them you can dissolve negative impressions and realize an openness that enables you to start new beginnings in your life.

Nearly every human being has collected lasting negative impressions which leave marks in our psyche. They prevent inner growth and reaching goals in your life.

By using the Feelings application you can walk the path of identification with your true Self and harmonize and align your feelings in the process.

Valor II™, Harmony™, Forgiveness™, Present Time™, Release™ and Inner Child™ create a basis for emotional harmony by the synergistic effects of these fine essences.
